# *How Trade Unionists can fight the Water Charges*

***Saturday 12th November, 2pm, TEEU Hall, 6 Gardiner Row, Dublin***
***(off Parnell Square, between the Castle Hotel and Barry's Hotel)***

**County Council workers and other trade union members can play a critical role in fighting the water charges.**

The Dublin Council of Trade Unions has passed a motion supporting the anti-water charges campaign. This forum is to discuss how the ordinary trade union member can help to swing the trade union movement as a whole into action against the charges!

## Organise NOW to fight future court action or attempted disconnections!

**IT IS UNLIKELY THAT THE COUNCIL MANAGEMENT WILL MOVE IMMEDIATELY TO BRING NON-PAYERS TO COURT OR PUT US UP FOR DISCONNECTION BUT WE MUST BE PREPARED!**

- Once you receive a red letter the Council can target you for court action or disconnection.
- Don't Panic! Be vigilant. Inform your neighbours and children to watch out for any interference at the stop-cock on your footpath.
- If you see anyone tampering at the stop-cock approach them immediately and inform them that you will be protesting to stop disconnection.
- Knock around your neighbours and get them to come out and stand on the stop-cock to prevent the disconnection proceeding.
- People power can stop any threats by the Council, if each local area gets organised.
- If you get a court summons contact us immediately. All the court can do initially is instruct you to pay. We can organise advice and support.

***United we can defeat this double tax - so don't panic, don't pay.***
***Stand together and get involved in the campaign.***
